

Stoneware Gravity Fed Water Purifiers

Premium Drinking Water Filter System

Attractive Design
Large variety of colours & design

Complete Protection
Up to 99.99% of contaminants filtered

1 Year Warranty*
Hand crafted in Australia

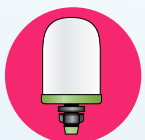

Handmade by a multi-award winning pottery producer here in Australia, specialising in the manufacture of stoneware gravity fed water filters.

These pottery water purifier system filters up to 99.99% of impurities producing naturally cool, great tasting drinking water.

- 💧 The UltraCeram® Gravity filter utilises a 3 stage filtration process that is suitable for use on municipal town water and rain water tanks.
- 💧 Fitted with a stainless steel tap with no plastic liners.
- 💧 Complete with a written 12 month warranty.
- 💧 Attractive addition to your home or office.
- 💧 Functions as a water storage container.

Removes contaminants including:

Sediment
Pathogenic bacteria
Cysts
Chlorine
Chloramines
Fluoride
Lead
Metals
Herbicides
Nitrates

Filters Fluoride

Fitted with the UltraCeram® Gravity filter; tested to remove over 97% of Fluoride from your water supply.

Included with your purchase of a gravity fed water filter the UltraCeram 5" Gravity Filter Cartridge

ULTRACERAM

The UltraCeram® Gravity filter combines mechanical filtration and physical adsorption processes to filter a wide variety of drinking water contaminants of both aesthetic and health concerns.

Stage 1 - The UltraCeram® Gravity filter is made from the highest quality NSF certified (ANSI 61) ceramic outer shell and provides 0.5 micron absolute filtration, removing sediment, bacteria, cysts and parasites.

Stage 2 - Impregnated with silver ions the UltraCeram® Gravity filter's ceramic media has enhanced bacteriostatic and self sterilising properties, inhibiting bacteria growth.

Stage 3 - The UltraCeram® Gravity filter's patented inner core of activated carbon and other adsorbent materials remove fluoride, chlorine, organic compounds, chloramines, herbicides and heavy metals.

Filtration Test Results

Impurities	% Reduction
Sediment, Rust	99.99
Pathogenic Bacteria	
Cholera, Typhoid, Salmonella, e-Coli	99.99
Cysts	
Cryptosporidium, Giardia	99.99
Heavy Metals:	
Aluminium, Iron, Mercury, Nickel, Zinc, Lead	98+
Pharmaceutical Compounds	
Acetaminophen, Progesterone, Ibuprofen, Naproxen Sodium	95
Arsenic	95+
Herbicides	99+
Nitrates	92+
Glyphosate	99.99
Fluoride	97+
Chlorine	99+
Chloramines	99+
MTBE	97+

💧 Made in UK

💧 The combination of ultra-fine ceramic and quality carbon block guarantees you and your family with absolute sub-micron filtration, superior removal of contaminants and great tasting water.

Specifications

Filter Output	2,000 litres
Max Flow Rate	1 litre p/hr
Dimensions (mm)	70(W) x 127(H)
Micron Rating	0.5 micron absolute

The UltraCeram® Gravity Filter cartridge can be washed & reused

If the flow rate slows, simply scrub clean under cold, running water with a clean sponge or brush.
