

Alpine Sparkling Specification Sheet

Instant chilled & sparkling filtered water

Dual Levered Slimline in Chrome

The Alpine Sparkling system is a filtered chilled & sparkling water system which provides chilled and sparkling water instantly. It delivers the following benefits:

Adjustable sparkling

The injection system used in the Alpine Sparkling units ensures the saturation of CO₂ is high in the water which means it has a better life and consequently, taste.

Adjustable sparkling water

Adjust the level of sparkling to suit your taste. With adjustable controls up to 5 bar of CO₂ pressure, this offers the world's best sparkling water carbonisation system.

Adjustable chilled temperature

A simple adjustable control knob allows the chilled water temperature to be raised or lowered for chilled and refreshing drinks.

Alpine Sparkling Specification Sheet

Specifications and guide to standard model selection

Product Number	Description	Initial cup delivery and suggested no. of persons	Delivery cups / hour	Total current draw (amps)	Unit Height (mm)	Unit Width (mm)	Unit Depth (mm)
933060DCH	Alpine Sparkling 60 Dual Levered Chrome	12	60	10	385	240	325
933122DCH	Alpine Sparkling 120 Dual Levered Chrome	20	120	10	385	240	325

Electrical installation requirements

The Alpine Sparkling requires a standard 10 amp AU power outlet. It is supplied with a 1 metre flex cord and plug.

Water supply

A single 15mm (1/2") stop-tap with a male thread + position. Water supply must be microbiologically safe to drink, with a minimum dynamic water pressure of 250kPa to a maximum of 1200kPa.

CO2 Gas Cylinder

The CO2 gas cylinder supplied must be secured in a suitable location. Each cylinder contains 1000g of CO2 and should be installed in a well ventilated area. Each cylinder will provide between 200-350L of sparkling water depending on the unit settings. The MSDS is available on www.billi.com.au for a complete list of specifications and warnings. Replacement gas cylinders are available from Billi.

Warranty

The Sparkling range is covered by a comprehensive 2 year warranty on all parts and labour

Filtration

Billi have partnered with globally recognised brand Pentair Everpure to create the most technologically advanced filtration for instant boiling and chilled filtered water systems. It removes sediment and chemicals, allows the flow of minerals through without scale build up and suppresses harmful bacteria in the water. Due to the unique Fibredyne™ technology, our filters have a longer life, higher flow rate and lower pressure drop, leaving you with healthy fresh water. All Billi cartridges are certified by NSF International.

Filter changes are made simple by our swing-change system and replacement cartridges are available online. Optional sub micron filters are available.

Certifications

Every Billi drinking water appliance is manufactured under a certified quality control system. The Alpine Sparkling models have been tested and complies with all required standards Watermark Licence Number 25917; Certified to ATS 5200.105 and AS/NZD4020; ISO 9001 AS1428 Accessibility Design Requirements; Section J6 of the BCA; Certificate Number QEC 11627.
