H33cm x W25cm
Item #1169

FIN
H25cm x W20cm
Item #1175

METRO
H25cm x W16cm
Item #1692

Plumbing Options

We stock a large supply of brass plumbing parts & John Guest Speedfit® fittings to cater to your plumbing requirements.

*All Fittings include a Pressure Limiting Valve (PLV)

ULTRACERAM - 0.5 MICRON ABSOLUTE
Complete Micro-Biological Protection

CARBON BLOCK - 1 MICRON
Superior Chlorine & Heavy Metal Removal

5 YEAR WARRANTY*
Hand Built in Australia

The UltraCeram® Stainless Steel Triple Undersink System

- ✓ **Exceptional Cost-To-Performance Value**
- ✓ **The Australian WaterMark Standard Approval of this system is your *guarantee* of quality.**

Specifications	
Filter Output	5,000 litres
Max Flow Rate	3 litres p/min
Dimensions (cm)	32(W) x 33(H) x 12.5(D)
Micron Rating	0.2 Micron nominal
Warranty	5 years*

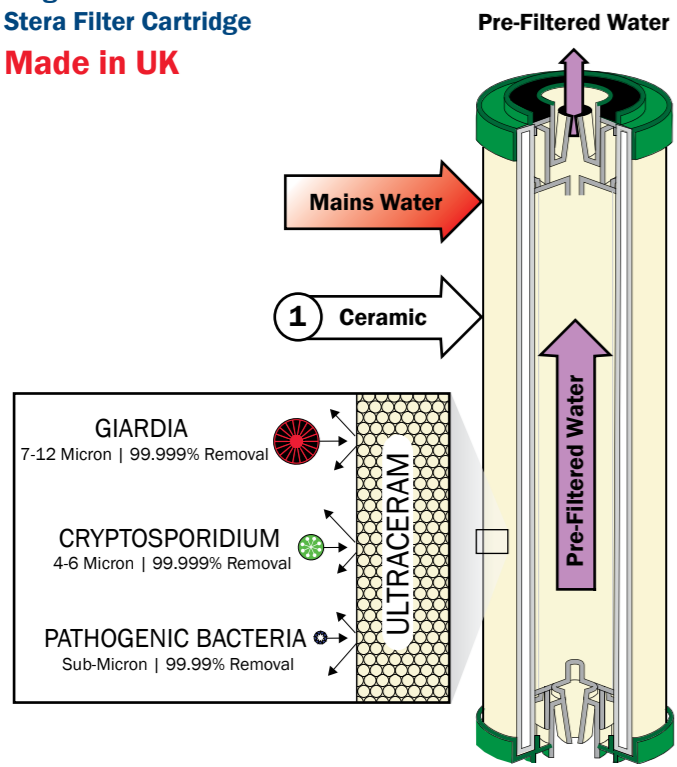

Filtration Test Results

IMPURITIES	REDUCTION %
e-Coli	99.99
Residual Chlorine Content	99.0
FLUORIDE	97.6 - 99.0
THM	
Bromodichloromethane	99.3
Bromoform	99.3
Chloroform	99.5
Dibromochloromethane	99.3
METALS	
Zinc	99.7
Iron, Lead, Manganese, Cadium	99.9
Copper, Mercury	99.9
Aluminium	98.7

*Warranty Terms & Conditions apply.

Stage 1 - UltraCeram® Stera 0.5 Micron Absolute Pre-Filter

Diagram 2 - The UltraCeram® Stera Filter Cartridge
Made in UK

1 Manufactured with UltraCeram® Stera Ceramic which provides genuine sub-micron filtration. This stage reduces fine particulate matter, bacteria, cysts and turbidity. Silver, incorporated within this ceramic structure provides enhanced bacteriostatic and self sterilizing properties.

Mechanically filters out harmful bacteria and parasites.

Removes	
Parasites/Cysts	Salmonella
Cryptosporidium	Cholera
Giardia	Sediment
Bacteria	Dirt
e-Coli Bacteria	Rust

Removing the above contaminants protects the Carbon Block Post Filter cartridge, allowing it to function more effectively and last longer.

Diagram 3 - The UltraCeram® Fluoride Filter Cartridge
Made in USA

EPA Listed Media

Stage 2 - UltraCeram® Fluoride Filter

2 The fluoride removal media is made from the same mineral that rubies and sapphires (corundum) are made from, in crystalline form. The process 'selective adsorption' is a physical/chemical reaction whereby the fluoride ions are removed by binding to the media's oxidised surface. This highly porous material has a large surface area of 200meter² per gram for optimal filtration.

Removes
97.6% - 99.0% Fluoride

Scrub Clean Cartridge

If the flow rate slows, the UltraCeram® Stera filter cartridge can be washed and reused*.

Simply scrub it clean under cold, running water with a clean Scotch-Brite® pad or kitchen brush.

Stage 3 - Carbon Block 1 Micron Post-Filter

Diagram 4 - Carbon Block Post Filter Cartridge
Made in USA

3 The 1 micron Carbon Block filter effectively removes chlorine, heavy metals and the unpleasant tastes and odour associated with these contaminants.

Made from premium coconut-shell carbon, fresher, sweeter tasting water is ensured.

Removes	
Chlorine	Lead
Aluminium	Mercury
Cadmium	Zinc
Copper	Odour
Iron	Taste

This combination of ultra-fine Ceramic and quality Carbon Block will provide you and your family with superior quality filtration and much improved taste compared to other standard twin filter systems.

Undersink Setup

Diagram 5

- A** 1/4" blue tube connects the feed water valve to the Pre-Filter.
- B** 1/4" blue tube connects the Carbon Block Post Filter to the chrome faucet.

Parts	
1	Chrome Faucet
2	Housing
3	Bracket
4	Tee Piece
5	Ministop Valve
6	PLV
7	Blue Tube
8	Screws
	Red Clips

Diagram 6

*We recommend replacing your UltraCeram Stera cartridge every 2-3 years and the Carbon Block cartridge yearly dependent on water quality and usage.
